MORE WHISKEY MADE

Washington, May 14.—Notwithstanding the fact that prohibition laws have become effective in seven states since July 1, 1918, approximately 7,500,000 gallons more whiskey has been produced in the United States so far during this fiscal year ending June 30 than ever before. Returns to the internal revenue bureau approximate the total increase for the year at 10,000,000 gallons.

During the same period the produc-tion of beer has fallen more than 1,500,-barrels, or 46,000,000 gallons, from last year's figures. The total production of beer for the year ending June 30, it is estimated, will be about 60,000,000 gal-lons less than it was in the last fiscal

People May Come and Go Between Hours of 4 in the Morning and Midnight

MUST REMAIN WITHIN DOORS FOUR HOURS

Premier Asquith is Credited With Modification of the Regulations-Nationalist and Unionist Circles Are Discussing Tentative Suggestions Respecting the Future Government of the Country-Many Reports Are Current Concerning the Alleged Harshness of the Troops-Premies Asquith Visited the Ruins of the Buildings Destroyed in Various Sections of the City.

Dublin, May 14.—The great modification in the regulations of martial of disarming everybody in reland making gave the people of Dublin today a belonging to the recognised militar freedom of movement, strongly conlaw gave the people of Dublin today a freedom of movement, atrongly contrasting with the restrictions imposed since the rebellion. All may now come and go as they wish between the hours of 4 in the morning and midnight. During the remaining four hours they must keep within doors.

It is generally understood that Premier Asquith is responsible for this relaxation. The premier's study of cenditions and the sentiments of the people apparently convinced him that there was no great element of rebellious spirit remaining.

What Asquith is Doing.

What Asquith Is Doing. Mr. Asquith's chief occupation since his arrival in Dublin has consisted in seeking a method for the adjustment of the Irish crisis and in ascertaining whether it would be advisable to return to the former system of government or to adopt a change of rule more in accordance with the wishes of the people. The premier has also given some attention to minor factors, these having to do with the disposal of the remaining rebel prisoners and compensation for the material dam-

> Mexico, Texas and Mexico. Elephant Butte, N. M., May 14,— Work was completed here yesterday on the Elephant Butte dam, a United States reclamation service project which, by damming the Rio Grande river, forms the greatest storage reservoir in the world. Construction began five years ago. The reservoir will feed an irrigation system that will water 185,000 acres of land in New Mexico, Texas and Mexico. The dam blocks acanyon of the Rio Grande 120 miles north of El Paso. It is the fifth of the government's hig irrigation projects and will store the entire flow and flood of the river.
>
> The reservoir will hold 115,000,000.
>
> The reservoir of water which reclame. 000 cubic feet of water, which reclama-tion service experts say would cover the state of Delaware to a depth of

The dam stands 318 feet high and is 1,674 feet long. It provides a roadway across the canyon 16 feet wide and at its base is 235 feet thick. Territory to be irrigated by the reservoir lies in four valleys. For each of these a diversion dam and main canals are being constructed. Twenty-five thousand acres of land is on the Mexico side of the river near Juarez. More than haif of it is virgin, with a small acreage owned by the government.

The government before beginning construction of the dam laid out a town equipped with modern conveniences, such as electric lights, water and sewerage, stores, schools, hospitals, hotels and a theatre. At times as many as 4,000 persons lived in the town, whose government was entirely under the jurisdiction of the engineers. A rallway was constructed through 12 miles of rough country to connect the
